

**Why buy oxigenato-purifyier
S1-AB choosing
"Acqua di Lunga Vita"
is taking care**

Health doesn't have price, your health and that of your darlings, of your family, is of primary importance. Esperienza Benessere has created a product that purifies water and gives oxygen, giving you the complete safety of absence of virus and bacterias, as well as the certainty that the water that you drink is surely coadjutant in to prevent the illnesses.

The difference among the oxigenator / purifying Multioxygen and another purifying with filter or membrane, are due to the ozone, which neutralizes completely the viruses and the bacterias that naturally proliferate in the water, and the oxygen makes it vital.

This doesn't happen with the purifyer with filter or membrane, that pick up virus and bacterias but they don't destroy them and therefore can be affirmed, with certainty, that filtered water is not completely pure. Rather, the filter or the membrane become a perfect place of proliferation.

The water that flows out after the ozonizing and oxygenating treatment is:

"Acqua di Lunga Vita"®

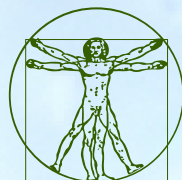

Drink daily, this water will give balance to our bowel always under stress and it will regulate the assimilation, helping to eliminate the toxins produced, in order to help us to prevent the autointoxication from medicines, environmental or alimentary.

What is Ozone?

Air and Fire

When the air and the fire meet, born the ozone.

The ozone is a gas that in nature it is formed with the developing of lightnings - fire element - that strike the air and, breaking oxigen's molecules, they tie them among forming this useful gas of vital importance for us and for the Earth. More than one century ago starts the study of the ownerships of the ozone discovering its applications for health and beauty.

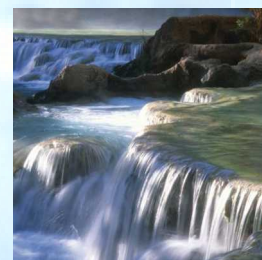

The scientific researches on the ozone have allowed the application of it making it a protagonist of the future of medicine, giving prominence to the lack of collateral effects.

Currently the Ozonotherapy is used as treatment and as prevention of illnesses, the application of pure ozone or with water produces in the body a series of reactions and with the addition of the oxygen it allows the activation of fundamental substances for the health, the comfort and the longevity, creating equilibrium between body and mind.
